WELCOME TO EVEREST SECONDARY SCHOOL

EVEREST AS AN INSTITUTION

Established in 2050 by a dedicated team of academic enthusiasts, Everest Secondary School has been committed to providing cutting-edge education. The school places special emphasis on fostering the holistic development of students in a nurturing environment that resembles a home away from home. Through unwavering efforts, the institution has garnered the trust and confidence of parents, guardians, and well-wishers. The school's relentless dedication is evident in shaping students with life virtues that empower them to achieve optimal success and happiness in their lives.

With the aim of ensuring the comprehensive development of children, the school places equal emphasis on both academic and extra-curricular activities. This priority is intended to equip them to confidently face the various challenges of life as they mature and pursue their respective careers. It is worth noting that the competitive nature of the world necessitates a skilled workforce, achievable only through the provision of education that is both value-based and tailored to meet current needs, complemented by moral fortitude. In this regard, the school has dedicated its efforts to establishing itself as one of the nation's premier academic institutions, guided by the illustrious motto,

'Education for Peace and Prosperity'.

Vision

- Enable Children to boldly face the possible challenges in future
- Advance as an excellent academic hub to produce efficient and skilled human resource required in the eradication of educational unemployment and brain drain

Mission

- Develop the school into a vibrant academic hub
- Speed up the progress of the school through the effective mobilization of skilled and trained human resources for quality education
- Cater to academic enhancement through most contemporary innovative methodologies/ pedagogies

Objectives

- Instill the traits of good manners, discipline and etiquette in children to shape them as perfect humans
- Inculcate humanitarian values in the minds of children
- Uphold the spirit of progressive learning

MESSAGE FROM THE PRINCIPAL

Dear Parents and Well-Wishers, Warm Greetings,

Over the course of three remarkable decades, Everest has grown from humble beginnings into a distinguished institution of learning—widely recognized as a beacon of academic excellence in Nepal. In the year 2082 BS, we proudly celebrated the 32nd anniversary of our establishment, reflecting upon a journey defined by dedication, achievement, and continuous progress.

Our unwavering commitment to quality education has been honored with national recognition by the Government of Nepal in the years 2068, 2070, 2073, 2074, and 2075 B.S. These accolades—comprising shields, the national flag, certificates, and cash awards—were conferred in acknowledgment of our outstanding performance in the SLC/SEE examinations. A particularly significant milestone was achieved in 2075 B.S., when the Right Honorable Prime Minister honored Everest with a shield, flag, certificate, and a cash prize of NPR 2 lakhs for securing the second position nationwide in the Grade XI and XII board examinations.

Beyond academics, we have continually strengthened our physical and academic infrastructure to create a dynamic and enriching learning environment. Our facilities include advanced Science and Computer laboratories, a dedicated Mathematics Lab, a well-resourced library, a spacious conference hall, and ICT-enabled, air-conditioned smart classrooms furnished with flexible seating arrangements to foster collaborative learning. Our expansive three-acre campus offers a well-maintained playground, modern cafeteria, age-appropriate swimming pools, basketball and volleyball courts, a football ground, table tennis, and a badminton hall. The school also provides psycho-social counseling services and medical facilities, ensuring the holistic well-being of every child. Access to safe, pure, and filtered drinking water further reinforces our commitment to student health and safety.

Pedagogically, Everest embraces innovative and progressive teaching methodologies designed to prepare students to confidently navigate the challenges of the future. Our academic programs are led by a team of highly qualified, trained, and experienced educators, enriched by visiting experts with distinguished academic and professional backgrounds. We practice the NCBL (No Child Left Behind) approach, ensuring interactive, student-centered instruction supported by group discussions, project-based learning, field visits, audio-visual tools, charts, models, and multimedia resources.

From Nursery to Grade VII, we emphasize Activity-Based Teaching and Learning in collaboration with Rato Bangla Foundation. For Grades VI to X, we work closely with Kathmandu University School of Education to integrate contemporary pedagogical innovations and best practices into our curriculum. Furthermore, hands-on science education from Grades VI to IX is conducted in association with Karkhana, and Computer Science education from Grades III to VIII is also strengthened through this collaboration. Additionally, our partnership with Digi School enables us to offer NCC-certified computer education aligned with the educational standards of the United Kingdom.

Everest also takes pride in providing international exposure to its students through active participation in Model United Nations (MUN) conferences. Last July, twelve of our students represented the school at an international MUN conference in Vietnam, and nearly ten students are set to participate in upcoming MUN conferences in Switzerland, France, and Belgium—broadening their global perspectives and leadership capacities.

As we step into the New Year 2083 BS, I extend my heartfelt wishes for peace, prosperity, and continued success to all members of the Everest family. I warmly invite you to visit Everest School and witness firsthand the vibrant learning community we have cultivated. Your trust and support remain the cornerstone of our journey. We welcome your constructive feedback and look forward to the privilege of nurturing your children as we continue striving toward the pinnacle of educational excellence.

With best regards

Principal
Tikaram Puri

MESSAGE FROM THE VICE-PRINCIPAL

Dear Parents, Students, and Members of the Everest Secondary School Community,

It is a privilege to extend my warm greetings to you on behalf of Everest Secondary School. For more than three decades, our institution has remained committed to providing an education that combines academic excellence with the development of strong character, discipline, and social responsibility.

Under the visionary leadership of our Principal, Mr. Tikaram Puri, Everest Secondary School has continued to grow as a vibrant center of learning where students are encouraged to think critically, explore creatively, and develop the confidence to face the challenges of a rapidly changing world. Our collaboration with the Rato Bangla Foundation for activity-based learning, along with the integration of hands-on experimental learning through the Karkhana program, reflects our commitment to innovative and experiential education. In addition, the introduction of the NCC-certified computer course from the United Kingdom for students from Grade-Three to Grade-Eight provides early exposure to internationally recognized digital learning.

At Everest, we believe that meaningful education emerges through active engagement. Our student-centered approach emphasizes interactive teaching, project-based learning, field visits, and the use of modern educational resources. Guided by the principles of the NCBL (No Child Left Behind) approach, we strive to ensure that every student receives the support necessary to achieve their full potential.

Beyond academics, we also encourage students to develop a broader global perspective through participation in Model United Nations (MUN) conferences and other international platforms. These experiences foster leadership, communication skills, and global awareness, helping our students grow into confident and responsible citizens of the world.

I warmly invite prospective students and parents to explore the opportunities that Everest Secondary School offers as we continue our journey toward excellence in education.

Together, let us continue shaping young minds today for the responsible leaders of tomorrow.

With best regards

Vice-Principal
Kundan Puri

SCHOOL COUNSELLING SERVICE

Everest School offers School Counselling service dedicated to nurturing the well-being and personal development of our students. Our experienced and empathetic counsellors provide a safe space for students to express themselves, address challenges, and develop coping strategies. Whether facing academic stress, personal concerns, or career-related queries, our counselling team is here to support every student on their journey. At Everest, we prioritize mental health and holistic growth, ensuring each student has the guidance they need to navigate the various aspects of their educational experience. Our students' well-being matters to us!

Our Evaluation System & Collaboration

Chapter Based Test (CBT)

Teachers give CBT on the basis of chapter taught during the current week. Students are provided with the answer sheets after corrections by the teachers and they must be returned to school with parents/ guardians' acknowledgements. This is the one of the major component in our internal evaluation system.

Continuous Assessment System (CAS)

The school has implemented CAS from Montessori to Middle Level for the evaluation of students' learning achievements. The principal objective of the CAS is to evaluate children's overall achievements incorporating their scholastic as well as behavioral and moral strengths. CAS provides the scope of assessing children's learning achievement regularly and focuses on the environment of, practical skills in order to avoid rote learning.

Syllabus Design

The school lays its prime focus on enhancing practical skills in children and works on assigning them with project based tasks on a regular basis. Hence it has developed its own syllabus keeping in line with the border framework of the curriculum as and signed by the Government of Nepal. The school also implements the provision for teachers to divide the courses into three parts with the target of the completion of 40%, 35% and 25% before the First, the Second and the Annual Examinations respectively.

Meetings with Parents/ Guardians

The school organizes both formal and informal parents meetings in order to discuss the overall progress of their ward/s. The school administration organizes occasional formal meetings with parents/ guardians, in which parents/ guardians are directly addressed by the Principal and the Vice-Principal. However, frequent informal meetings are held by the class teachers, level in-charges and subject teachers for one to one discussion about the academic as well as behavioral progress of children.

Terminal Examinations

The school conducts three terminal examinations and one annual examination annually in order to assess children's academic performances and their ability for promotion to the higher grades. The first, second and third terminal examinations carry on 15% each and the annual examination carry on 55% in the final grade statements.

Homework

Everyday children are assigned homework as per the homework schedule designed to cover all subject assignments on a weekly basis. The work is checked and corrected the day after with necessary comments and suggestions by the concerned subject teachers. Children are required to make notes for further reading in line with the teachers' comments and corrections.

Rewards and Affirmative Counseling

Everest believes that children need to learn in an environment, that stimulates their interests in whatever they strive to learn. The school encourages children to boost up their learning attitude by rewarding them with medals, certificates and other modes of appreciation. However, the school has provision of affirmative counseling and demerit cards for those who repeatedly make a breach of the school norms. Issuance of the demerit card for 3 times may lead to suspension or expulsion of the particular student depending upon the nature of the breach.

Our Collaboration with Rato Bangala & Karkhana

Everest takes pride in conducting in-service teachers' training programs periodically. All the teachers are regularly updated with such training programs for adopting effective teaching methodologies and classroom delivery skills in order to meet the expectations of parents and students. The school hires subject experts and professional trainers to equip teachers with the best tools for effective and the most contemporary teaching methods. The school has collaborated with Rato Bangala Foundation, Kathmandu aiming to empower teachers of Montessori and Primary Level by offering evidence-based trainings which foster quality education that prepares children to thrive in the ever-changing world and ultimately contribute their society in meaningful ways. The school has also collaborated with 'Karkhana' as a part of STEM education, in an attempt to fostering the culture of experimentation, giving hands-on learning experience for the students, making science learning fun, dynamic and relevant. Every program designed by Karkhana is aligned with the national curriculum and are focused in equipping the students with the right skills and attitudes so that they can solve the problems on their own and build their own future.

Collaboration with Digi School/ Kathmandu University

Today is the age of ICT, Information and communication technology, and we are continuously trying to offer the best of the curriculum. Everest Secondary School has collaborated with the Digi School, Kathmandu to provide our students, the United Kingdom's NCC certified computer courses for same year. This new collaboration is sure to provide our students an exposure to the world class curriculum in technology and keep them ahead. For Grade VI to X, we work closely with Kathmandu University School of Education to integrate untemporray pedagogical innovations and bwest practices into our curriculum.

Everest Montessori

Everest Montessori is proud to offer a learning environment rooted in the renowned Montessori philosophy, which emphasizes child-led discovery, hands-on learning, and holistic development. Following the successful integration of this Advanced Montessori system into our curriculum, we have witnessed a remarkable transformation in how our students engage with learning. By making education a joyful and playful experience, children now approach complex concepts with confidence and ease.

At Everest Montessori, our goal is to create a warm and nurturing environment that makes learning both enjoyable and meaningful. We focus on activities that spark curiosity and deepen children's understanding of the world around them. Through play and exploration, we encourage students to build confidence, self-esteem, and independence. Every child is recognized as a unique individual, and we are committed to meeting their diverse needs in an inclusive setting that celebrates differences.

We place great emphasis on nurturing social and emotional skills, helping children grow into well-rounded individuals capable of navigating the emotional, social, and practical challenges of modern life. Our Montessori approach is designed to help each child reach their maximum learning potential while fostering balance and resilience.

The Montessori method at Everest goes beyond the mere retention of knowledge. It cultivates independence, self-discipline, sensory development, social grace, and physical coordination, while also stimulating language and creativity. Above all, we strive to instill in every child a genuine love for learning—one that will accompany them throughout their lives.

Why Everest Montessori?

- Latest child friendly teaching methodologies based on Montessori
- Teaching learning activities carried out with sufficient and innovative teaching materials by well-trained, experienced and professional teachers
- Playground having ample space along with well - equipped play station
- Hygienic and nutritional cafeteria with child friendly food menu
- Transportation facilities for long distance children if necessary
- Fine art, music and dance classes
- Audio visual classes with spacious activity hall
- Regular parent/ teacher interaction and workshops
- Spacious air-conditioning classrooms

Extra Curricular Activities

To foster healthy competition, teamwork, and leadership, students are organized into four houses—Mehi, Koshi, Gandaki, and Karnali—each guided by dedicated House In-charges and House Captains. The school employs qualified games and sports coordinators who provide specialized training in various track and field events and sports. An annual Sports Meet is held to showcase students' athletic talents, allowing parents and guardians to witness their children's skills and achievements. Additionally, students are trained to participate in both local and national level competitions, with access to more advanced coaching as needed.

Beyond sports, the school offers a vibrant range of extracurricular activities through ten distinct clubs, enabling students to explore and develop their interests throughout the year. Children are free to choose clubs based on their passions, ensuring a well-rounded and engaging experience. The clubs include:

- Swimming
- Dance
- Table Tennis
- Fine Arts
- Music
- Basketball
- Football
- Volleyball
- Drama
- Martial Arts/Taekwondo/Wushu

Infrastructure of Everest !

Nestled in a peaceful locality of the capital city of Koshi Province, Biratnagar, Everest Secondary School stands as a beacon of educational excellence, boasting not only academic prowess but also a remarkable array of top-notch infrastructure. Every classroom is air-conditioned preventing our students from the scorching heat in the summer and providing much needed warmth during the winter. The sprawling arena is a testament to the school's commitment to holistic development, featuring an extensive football ground that echoes with the cheers of enthusiastic players during matches and tournaments. Adjacent to it lies a meticulously maintained basketball court, where students hone their skills and exhibit stellar teamwork.

Venturing further, one discovers a state-of-the-art volleyball court, providing an avenue for both friendly matches and intense competitions. The school's dedication to physical fitness is further exemplified by the presence of two gleaming swimming pools, catering to beginners and seasoned swimmers alike. The aquatic facilities not only contribute to the students' overall well-being but also host exciting swimming meets that add a splash of excitement to the academic calendar.

For moments of camaraderie and relaxation, the school offers a vibrant cafeteria where students gather to refuel and unwind. Additionally, a covered hall stands as a versatile space, hosting events ranging from table tennis, to badminton and taekwondo sheltered from the whims of the weather. Everest Secondary School's infrastructural splendor serves as a solid foundation, complementing its educational prowess and fostering an environment conducive to both learning and personal growth.
